WHO IS L.G. SMITH?

Due to the island's favorable geographic position and peaceful political climate, the Lago Oil and Transport Company Ltd. was established in Aruba in 1924. From 1932 on, the refinery was operated as a subsidiary of the Standard Oil Company of New Jersey. It is here that we meet Lloyd Gaston Smith, a man associated with Lago since 1927.

General Manager since 1933, the late L. G. Smith became Vice President of Lago in 1942. He became Lago's first President in 1944. In his honor, the government of Aruba inaugurated a bust of L.G. Smith in front of the Cultural Center in 1961, and an Oranjestad thoroughfare was also named after him.

The Lago refinery had an enormous impact on Aruba's development. In Lago's early years, thousands of foreign workers hailed from the British and Dutch islands. The English spoken at Lago by the laborers and the American staff became Aruba's second language.

Lago grew into a huge refinery, but the inability to compete with modern technology forced it to shut down in 1985. After reopening under different owners, the refinery again closed in 2012 and remains inoperative today. But the legacy of Lloyd Gaston Smith lives on, as Aruba continues to be one of the most popular vacation destinations in the entire world, where institutions like L.G. Smith's reflect the island's rich history.
